INTRODUCTION

A passionate and curious engineering student pursuing B.Tech in AI and Data Science. Skilled in Python, with a strong interest in technology, coding, and exploring new tools. Always eager to learn and grow through practical experience

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Data Science

-Shivaji University, Kolhapur

High Education

-D.B.F. Dayanand College of Arts & Science

SKILLS

Programming Languages: Python, SQL

Tools & Libraries: Pandas, NumPy, Extract, Transform & Load (ETL)

CERTIFICATIONS

Python projects for Data Engineer – IBM

Python for Data Science, AI & Development – IBM

SQL(Advance) – HackerRank

ACADEMIC PROJECT

Extract, Transform & Load Pipeline

- Extracting the data from web sources transform and load it database / csv
- Used Python libraries like Requests,SQLite3,Pandas, NumPy, for data cleaning, statistical analysis.
